LAKE RAY HUBBARD
HEATH, TX

MAYOR'S MESSAGE

WELCOME TO HOMETOWN HEATH!

We are so pleased that you have chosen our community for your new home, and I encourage you to explore all that Heath has to offer you and your family. You'll find that while retaining the charm and character that makes Heath special, we are growing in all the right ways to ensure an exceptional quality of life today, and tomorrow.

One of our most precious amenities is Lake Ray Hubbard with water-skiing, boating, fishing or simply taking in a spectacular sunset at the end of a busy day. Additionally, world class sailing (and Olympic champions!) can be found at Rush Creek Yacht Club.

If you are a golfer, Buffalo Creek Golf Club, one of Texas' finest championship golf courses, is located in Heath. In addition to the fields and facilities at our Towne Center Park, you'll find boat ramps, a picnic pavilion and walking path at the waterfront Terry Park. With a recently updated Parks Master Plan, our City Council is dedicated to continuing to invest in the development of a citywide trail system and park enhancements that benefit all ages.

Additionally, we have a few new businesses coming to town, including a Tom Thumb grocery store opening in the third quarter of 2019. The recently updated Comprehensive Plan calls for new commercial growth to be concentrated in the "center" of our town to sustain the unique charm that attracted you to Heath in the first place.

You will also find that our warm, friendly residents take great pride in that uniqueness and demonstrate tremendous community spirit through civic events such as our Holiday in the Park Celebration and Christmas Tree Lighting Ceremony; the Independence Day Parade and Patriotic Celebration in the Park; and our Fun & Fit in the Park on Easter Saturday, which features the Heart of Heath 5K and Family Runs. The best times in Heath are when we gather together, and I invite you to join us for these special traditions throughout the year.

We are truly proud of our past and excited about the future. Any time that you have concerns or questions, please contact a member of our City staff, a councilmember or me by calling 972-771-6228. You can also email us at cityhall@heathtx.com.

Best regards,

Kelson Elam
Mayor

City of Heath

CITY OF HEATH PARKS & TRAILS

More Information and Park Reservations:

www.heathtx.com/living-in-heath/parks-and-trails

Heath residents can enjoy fun and recreation right in their own hometown as the community's parks and trails system continues to expand with opportunities to relax, play and exercise.

The City recently updated and enhanced the Comprehensive Plan which identifies and preserves land for additional parks and a trail system that will ultimately link all parts of Heath.

RECREATION FACILITIES PARK HOURS

Parks are open from 6:00 a.m. – 10:00 p.m. each day.

TOWNE CENTER PARK

Located behind City Hall at 200 Laurence Drive

Towne Center Park is circled by a paved trail that continues into the Highlands of Heath neighborhood. The park also offers soccer, football and baseball/softball practice fields, a playground, restroom facilities and a beautiful large pavilion with picnic tables.

The fields and the pavilion, which are available for private rental, are the site for many community events including the Annual Heath Holiday in the Park, Heart of Heath 5k Run Walk, and icy cold popsicles for all following the Heath Independence Day Parade.

TERRY PARK

Located lakeside at the end of Terry Lane

This waterfront gem features a state-of-the-art, two-lane boat ramp with two courtesy docks, walking trail, landscaping, lighting features, a restroom facility, covered pavilion and paved parking.

ANTIGUA BAY COMMUNITY PARK

Located at Hubbard Drive and Scenic Drive

A community park within the Antigua Bay neighborhood. The park features a gazebo, a pavilion with BBQ grill, walking trail, benches, swingset and open space.

CITY OF HEATH TRASH COLLECTION

More Information:

www.heathtx.com/living-in-heath/trash-collection

All City of Heath customers receive a 94-gallon rolling poly cart for trash collection, and a 95-gallon rolling poly cart for recyclables.

Apart from the streets and areas listed below, waste will be collected on Mondays for residents west of FM 740; and Tuesdays for residents east of FM 740.

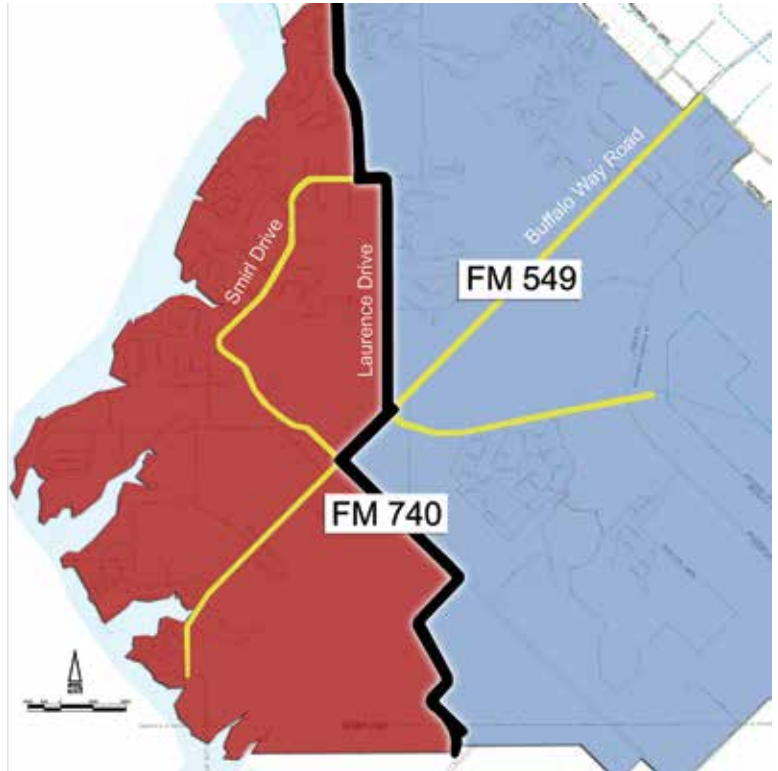

Waste Connections trash and recycling collection will be on Tuesdays for the following streets and areas:

- Dunford Drive
- Foxborough Court
- Gordon Circle
- Heath Golf & Yacht Club
- Hubbard Drive (From the Intersection of FM 740 South to the dead end)
- Lee Drive & Court
- Linda Lane
- McCrummen Estates
- Normandy Lane
- Michael Drive & Circle
- Reba Lane
- Scenic Drive & Place
- Skyline Drive
- Stanford Court
- The Dominion
- Thomas Circle
- Victoria Place

BRUSH PICKUP

Waste Connections will pick up brush twice a month. The amount of brush hauled away free of charge remains at three cubic yards. Anything over three cubic yards will continue to be billed at \$10 per yard.

The brush pick up will occur during the weeks of the first and third Mondays each month. The brush should be placed curbside by 7:00 a.m. on the first and third Mondays for collection that week,

DEPARTMENT OF PUBLIC SAFETY
HEATH CITIZENS AND BUSINESSES
ARE PROTECTED AND SERVED BY PROFESSIONALS

More Information:

www.heathtx.com/departments/department-of-public-safety

Heath homeowners and businesses enjoy the peace of mind that comes with knowing professional help is just minutes away should an emergency occur.

Different in structure than traditional Police and Fire Departments, Heath's Department of Public Safety combines these services with 20 professionals on staff who are cross trained to respond to any emergency call.

"Each of our officers is certified in the police, firefighter and emergency medical technician disciplines," explains Chief Terry Garrett, who oversees the Public Safety Department. "That means when they arrive as the first responders to a call for help, they are able to immediately begin doing whatever is required to save lives or property."

For example, if a police officer is the first to arrive on the scene of a medical emergency, he or she is able to initiate CPR or other basic medical care until an ambulance with Paramedics and advanced life support arrives. Every DPS squad car is equipped with first aid materials and equipment including an automatic defibrillator, a portable device used to deliver an electric shock to the heart of someone experiencing a heart attack.

Maintaining the certifications in all three disciplines requires extensive training. While a traditional police officer, firefighter or paramedic must complete 40 hours of in-service training every 24-month period, each City of Heath Officer must complete a total of 120 in-service hours in the same period to retain their certifications.

"Most of our personnel have attained intermediate or advanced level certification in both police and fire fields, and some have completed specialized training in areas such as hazardous materials, fire inspection, arson investigation, crime scene investigation, tactical operations and incident management," says Chief Garrett, who came to Heath with 26 years of experience. "Maximizing additional training opportunities is a top priority so that we can provide the best care and protection to our citizens."

The Department of Public Safety's staff also includes a detective and school resource officers who serve Linda Lyon, Amy Parks and Pullen Elementary Schools; Cain Middle School; and Rockwall-Heath High School.

HEATH VOTES

HOW TO PARTICIPATE IN ALL LOCAL, COUNTY, STATE AND NATIONAL ELECTIONS...

More Information:

www.heathtx.com/living-in-heath/heath-votes

Local elections are administered by The Rockwall County Elections Department. The mission of the Rockwall County Elections Department is to establish and increase public confidence in the electoral process by conducting voter registration and elections with the highest level of professional election standards, integrity, and accuracy.

Heath citizens have a consistently high record of voter participation in all local, county, state and national elections. Be sure your voice is heard on matters that affect you by registering to vote today. You can complete and submit a voter registration card at Heath City Hall during normal business hours. For additional information about voting in Rockwall County, go to www.rockwallvotes.com.

SPECIAL EVENTS SERIES

CITIZENS CELEBRATE TOGETHER

More Information:

www.heathtx.com/living-in-heath/special-events

HELD ON EASTER SATURDAY EACH YEAR

FUN & FIT IN THE PARK...

Featuring the Heart of Heath 5K & 1-Mile Family Run

The Heart of Heath 5k was established in 1994 by a group of dedicated volunteers to help raise funds for the construction of Towne Center Park, located behind Heath City Hall. Today, Towne Center Park is the “heart” of all City events, and this gathering has been expanded to include fitness FUN for the whole family including a new one-mile family run, life-size checkers, chess and other games, and complimentary healthy treats.

HELD ON JULY 4 EACH YEAR

INDEPENDENCE DAY IN THE PARK...

Featuring the Annual 4th of July Parade & Patriotic Celebration

For a patriotic hometown American experience, join the festivities at the City of Heath’s Annual Independence Day Parade on July 4. Parade entry awards are presented during a patriotic celebration immediately after the parade in Towne Center Park featuring a live barbershop quartet and free popsicles, mini pies and icy cold water. Staging for the parade is at 8 a.m., judging and awards are at 8:30 a.m., and the parade begins at 9 a.m. at Amy Parks-Heath Elementary School at 330 Laurence Drive. A Best Decorated Award is presented in several categories including: Float; Bicycle; Wagon/Stroller; Golf Cart; Off-Road Vehicle; and Antique Car. There are also awards for Best Costume; Most Patriotic Pet; Most Spirited; and the Mayor’s Award. The City’s Special Events Board is encouraging a little friendly competition among neighborhoods with a new award for the BEST NEIGHBORHOOD/HOA FLOAT! As always, the City of Heath invites veterans from any branch of the U.S. Military to ride in the parade on the Veterans Float. Active members of the military are also encouraged to ride or march in the parade.

HELD ON THE FIRST FRIDAY IN DECEMBER EACH YEAR

HOLIDAY IN THE PARK

This is an annual favorite featuring the musical talents of our local students, the Christmas Tree lighting, a winter village with some of the areas most popular food trucks, a cozy outdoor dining area warmed by holiday lights, a miniature train ride, and fun activity booths for the kids. There’s always plenty of complimentary hot cocoa, while Mrs. Claus and her elves serve complimentary Christmas cookies, home baked and donated by the National Charity League and Rockwall Women’s League. Of course, the star of the evening is Santa, who is available all evening for visits and photos in his picture perfect scene. After his grand arrival, he’s eager to visit and take photos with the children in his sleigh, nestled in a picture perfect scene. Bring your camera!

EVENT SERIES SPONSORS

The City of Heath Special Events Series is made possible in part by our generous sponsors. For more information about becoming a sponsor, contact Suzanne Brooke at sbrooke@heathtx.com.

HISTORY OF HEATH, TEXAS

In 1840, the Texas Congress ordered a central government road to be built from Austin to the mouth of the Kiamichi Creek at its intersection with the Red River. This road crossed the east fork of the Trinity River in what is now known as Heath. Immigrants and settlers who were attracted by the rich black soil of the area began to travel this road. In fact, the first name for the Heath area was Black Hills.

The first settlers were mostly farmers. In addition to the rich soil, they found an abundance of wild turkeys, deer, geese and ducks. There also was plenty of timber and water. The many willow trees that grew around the springs gave rise to the second name of Willow Springs for the area.

The first post office was established for the community, which by then was known as Heath, in 1880. During this period, Texas was evolving from an independent territory to a state. Counties were divided and re-divided. Heath was originally part of Henderson County, then Nacogdoches County, then Kaufman County. In 1873, a petition was circulated requesting that Rockwall be made a separate county. This petition was granted, and Heath was thus situated within the boundaries of the smallest county in Texas.

During the late 1800's, the Heath area experienced steady growth. Rockwall County assumed the operation of Barnes Bridge, which crossed the east fork of the Trinity River at Heath and took travelers into Dallas County. Businesses were opened in town. Due to some type of quarrel between the people in the north and south parts of the area, two schools were established. One was located in the north on the Pinion farm, and one was located in the south near the Baptist Church. In the 1800's, buffalo roamed freely in Heath. Each day at sundown, buffalo would run through what is now known as Darr Estates. Children were warned by the ringing of a bell and they would all go inside until after the buffalo had passed.

In 1902, the Heath Independent School District was formed and a new school building was built on the site of the current Heath City Hall complex. The town of Heath was devastated by fire in 1916; the first of three fires that destroyed many businesses and set the City's growth back significantly. After the 1920s, the population declined as young people left to find work in bigger cities such as Dallas. Farming revenue was not sufficient to support a family unless the farm was very large.

When the town population was 200 in 1949, the Heath school closed and merged with the Rockwall Independent School District. The town was incorporated in 1959. Lake Ray Hubbard became a reality in 1969. The old Barnes Bridge Road was covered by its waters. The first revenues of the City, a sum of \$100, were generated by its franchise with Texas Power & Light. By 1970, the population was 520 and homes were being built throughout the City. Newcomers were attracted to the openness of rural living and proximity to Lake Ray Hubbard.

As families continue to choose to live in Heath, the town has grown and thrived and in 2018 has a population of more than 8,100 residents.

Utility Customer - Account Confidentiality

The Texas Utilities Code provides for the confidentiality of government-operated utility account information, (Section 182.052). **A utility customer has the right to request confidentiality.**

To request that the City of Heath keep account information confidential, you must submit your request in writing. The form below is provided for your convenience. If you would like for your account information to be kept confidential, simply complete the form, detach it and return it with your utility payment in the envelope provided. Although allowed by law to do so, the City of Heath has elected not to apply a fee to process a customer's request for confidentiality.

Certain exceptions apply to the confidentiality protection:

The Utilities Code does not prohibit a government-operated utility from disclosing personal information in a customer's account record to:

- (1) an official or employee of the state, a political subdivision of the state, or the United States acting in an official capacity;
- (2) an employee of a utility acting in connection with the employee's duties;
- (3) a consumer reporting agency;
- (4) a contractor or subcontractor approved by and providing services to the utility, the state, a political subdivision of the state, or the U. S.;
- (5) a person for whom the customer has contractually waived confidentiality for personal information; or
- (6) another entity that provides water, wastewater, sewer, gas, garbage, electricity, or drainage service for compensation.

(Section 182.054)

A customer may rescind a request for confidentiality in writing at any time. If you have any questions, please contact Utility Billing at 972-771-6228.

City of Heath

IMPORTANT INFORMATION ABOUT YOUR RESIDENTIAL OR COMMERCIAL ALARM SYSTEM

New Alarm Permit Requirement

On September 16, 2008, the Heath City Council ordained that effective January 1, 2009, anyone responsible for the operation of or in possession of an alarm system in the City of Heath will be required to obtain a permit for operation of such system. The permit will be renewed each year. A penalty of \$200.00 may be assessed if the alarm system has not been registered for a permit. The permit requirement applies to monitored and non-monitored systems.

For purposes of this ordinance, vehicle alarms and alarms designed to alert only the inhabitants of a premise, i.e. smoke alarms, are not considered an alarm system and do not require a permit.

False Alarm Tracking

Alarm calls will be tracked to identify when systems have not been properly registered or when an alarm system results in excess of three false alarms per calendar year.

Penalties for alarm calls in excess of three false alarm calls per calendar year range from \$50.00 to \$750.00 per occurrence; depending upon the type of alarm system and number of false alarms. There are no penalties for the first three false alarm calls.

Applying for an Alarm Permit

Applications may be obtained at www.heathtx.com or at City Hall, 200 Laurence Drive, Heath. An application may also be obtained by mail by calling the Heath Department of Public Safety at 972-961-4900. Please complete the

application and return with a check for the appropriate amount. If you mail in your registration, a receipt will be returned to you by mail if requested. Please make your check payable to **City of Heath**.

Annual Fee for an Alarm Permit

The residential permit fee is **\$35.00/year**. The commercial permit fee is **\$50.00/year**.

The permit is good for a calendar year and must be renewed annually by or upon the expiration date. A separate alarm permit is required for each street address and each system.

Alarm permits are not transferable to other individuals or businesses. Should you change your home or business location, your permit automatically expires and the new owners will be responsible for a permit upon occupation of the property.

Failing to Apply For a Permit

Citizens or businesses that do not apply for a permit are subject to a non-registration penalty of \$200.00.

Additional Questions?

To review the ordinance, please go to www.heathtx.com. For additional questions, please contact the Heath Department of Public Safety at 972-961-4900.

ADDRESS: _____ TELEPHONE: _____

Complete emergency contact information on reverse side. Unless otherwise noted, the permit holder will be considered the first emergency contact to be notified. **List only those individuals who reside in the local area and are able and willing to respond in a timely manner to the alarm site.** Businesses must have at least two emergency contact people listed.

I have carefully read the completed application and know the same is true and correct and hereby agree that if a permit is issued, I will comply with all provisions of City of Heath Ordinances and applicable State Laws. I accept responsibility for payment of all fees or charges and any civil action that may result from the operation of this alarm system.

REMEMBER: ONLY RAIN WATER DOWN THE DRAIN... STORM DRAINS CONNECT TO WATER BODIES

The City of Heath is taking a pro-active approach to reduce water pollution sources and has implemented a Storm Water Management Plan (SWMP) in compliance with the Texas Commission on Environmental Quality (TCEQ).

The goal of the Heath's SWMP is to maintain natural and man-made drainage ways in free-flowing condition, to reduce the risk of localized storm water flooding, to reduce storm water pollution as required by federal law, to manage floodplain development, and to manage the municipal drainage utility system.

Maintaining water quality and proper drainage is very important and beneficial to all residents for many reasons:

- Property value can erode with an increase in water pollution or flooding.
- Water pollution is a deterrent for business growth.
- Polluted water is unsafe for many recreational activities including fishing, swimming and boating.
- Our drinking water is taken from surface water resources.

You can do your part to ensure a safe and clean water supply by taking a pro-active approach to reducing pollution in your own home and business. Learn more at heathtx.com by searching for Storm Water Management, or use the QR Code below.

What is storm Water runoff?

Storm water runoff occurs when precipitation from rain or snow melt flows over the ground. Impervious surfaces like driveways, sidewalks, and streets prevent storm water from naturally soaking into the ground.

Why is storm Water runoff a problem?

Storm water can pick up debris, chemicals, dirt, and other pollutants and flow into a storm sewer system or directly to a lake, stream, river, wetland, or coastal water. Anything that enters a storm sewer system is discharged untreated into the water bodies we use for swimming, fishing, and providing drinking water.

What are the effects of pollution?

Polluted storm water runoff can have many adverse effects on plants, fish, animals, and people.

Sediment can cloud the water and make it difficult or impossible for aquatic plants to grow. Sediment also can destroy aquatic habitats. Excess nutrients can cause algae blooms. When algae die, they sink to the bottom and decompose in a process that removes oxygen from the water. Fish and other aquatic organisms can't exist in water with low dissolved oxygen levels.

Bacteria and other pathogens can wash into swimming areas and create health hazards, often making beach closures necessary.

Debris—plastic bags, six-pack rings, bottles, and cigarette butts—washed into water bodies can choke, suffocate, or disable aquatic life like ducks, fish, turtles, and birds.

Household hazardous wastes like insecticides, pesticides, paint, solvents, used motor oil, and other auto fluids can poison aquatic life.

Land animals and people can become sick or die from eating diseased fish and shellfish or ingesting polluted water.

Polluted storm water often affects drinking water sources. This, in turn, can affect human health and increase drinking water treatment costs.
