UtilityLocates@heathtx.com

NOTE: Texas Law requires homeowners and contractors to contact 811 along with your local water/wastewater provider (2) two business days (excluding weekends and holidays) prior to digging, even if you are working in your own yard. If you don't call for locates and you hit an underground line, you will be responsible for the cost of repairs/damage. If locates are over (2) two weeks old or it rains, you are responsible for requesting new locates before digging.
